# **SURNAME INDEX TO VITAL RECORDS IN THE ALBUQUERQUE JOURNAL – 1940**

## **INTRODUCTION:**

This index is to cover the vital records which normally appear in the newspaper — births, deaths, marriages, divorces, and anniversaries. This index is prepared covering any individuals mentioned in the newspaper who have or had connections in New Mexico. In other words, a death occurring in Texas or New York would be indexed only for those persons of New Mexico origin or residence. A death of a person from New York in New Mexico would be indexed here. The news item of someone from New York who died in Texas would NOT be a part of this index. A marriage of a Coloradoan and a Californian, married in New Mexico and reported in the newspaper, WOULD be indexed here.

The Albuquerque Journal contains a great deal of information about events all over the state of New Mexico since it is the largest paper in the state. This index can be useful for many events which occurred outside of Albuquerque. Be alert when searching as often a subject appeared in more than one article on a page. We have attempted to show that by using “x2” to indicate “two times on that page.”

At this time, the Albuquerque Main Library has the Albuquerque Journal, in its various name changes over the years, from 1900 to present on microfilm. Pre-1900 newspapers are on microfilm at the Special Collections Library.

At this time we are attempting to complete a full surname index of the various Albuquerque newspapers from 1880 to 1917, a vital statistics index from 1918 to 1960, and the obituaries from 1960 on. Several years have not been completed but a listing of the indexes completed will be found at the back of this volume.

We hope you will find this index easy to use and filled with relatives for whom you have been searching.

## **FORMAT:**

The format of this index is quite simple. Names are given alphabetically by surname. It is compiled on an annual basis. This does mean that users will need to check each year, ESPECIALLY if some event occurred towards the latter months or beginning months of the year, due to overlap. The legend indicating the event is followed by the date and page or pages on which an article appeared. REMEMBER: the date shown is the date the event was reported in the newspaper and not necessarily the date of the indexed event.

When a name reference appeared on more than one page, we are setting that forth with just a comma; i.e., the dates "Jan 1, p. 1, Jan 1, p.2, Jan 1, p.17" is shown as "Jan 1, p.1, 2, 17". In some instances where there were many news items, we have had to compress the data and omit spaces and the letter "p" for page, as, Jan 1,p2; 2,p5;Feb 2,p1.

The legend is followed by the date and page or pages on which an article appeared.

B = Birth

M = Marriage

D = Death

AB = Anniversary of Birth

AM = Anniversary of Marriage

AD = Anniversary of Death

Div = Divorce

(x2) = two items on the one page
